

Product Data Sheet

NT 70/2 & 70/3

High capacity, high value All-Purpose Vacuum Cleaners

The NT 70/2 and NT 70/3 are tough, high capacity vacuum cleaners designed for demanding professional use. With 70 litre container capacity, tough construction and high manoeuvrability, the NT 70 range is equally suited to use in workshops, manufacturing, and vehicle valeting. The machine's independently-switched motors ensure high suction power when required, and economy and reduced noise when only one motor is needed.

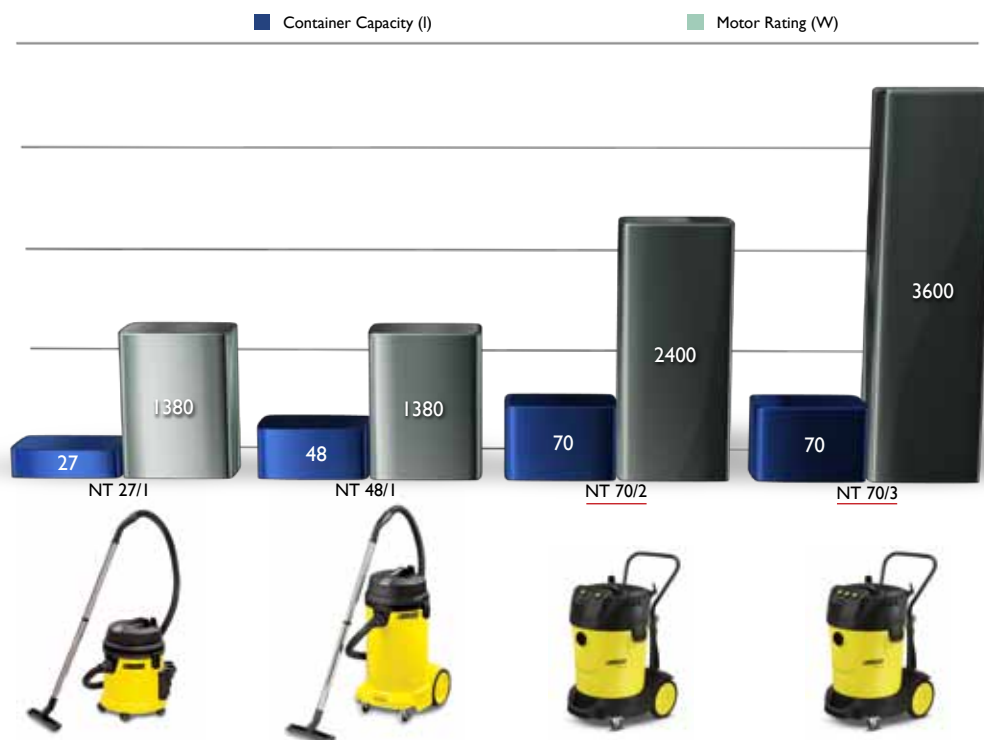

Features and Benefits:

- Superb value for a high capacity machine
- Choice of 2 or 3 independently-switched motors for superb versatility, economy and suction power
- Integrated accessory storage on the back of the machine
- Integrated hooks ensure convenient storage of the power cord
- Drain hose for easy container emptying
- Sturdy chassis with large wheels and castors for high mobility
- Large cartridge filter with mechanical shut-off device to prevent overfilling
